

Book Creator

WHAT IS Book Creator?

Our parents only had the option when they were in school to create a book with paper and pencil. It is so cool to be able to create a video on any subject and share it with the world! This is how we redefine our learning! It is an amazing app for student publishing. Students can create their own iBooks and can record their voices. You can insert pictures, drawings, videos, and text. It can be uploaded to iBooks and can be shared on the Promethean Board with whole class. Use with your Apple TV to wirelessly project your books.

HOW DOES Book Creator SUPPORT LEARNING?

Your student can let your imagination run wild and it is easy to use. They can explain a topic, write a book on a science topic, create a book on research they have done, procedural writing assignment, or even create a fictional book with their own characters.

Cost: \$4.99 or Free (half price if you purchase more than 20)

Let me show you how is easy this is! (Show example of how to tie a shoe...this was a procedural writing assignment)
