

# Croak It!

## WHAT IS CROAK IT?

Croakit is a program where you can record your voice for 30 seconds.

## HOW DOES Croakit SUPPORT LEARNING?

Your students can make a 30 second recording for something important that they need to remember. It could help them study for a test. They can explain a concept for a unit you are studying and turn it into you for a grade. It can help kids with reading fluency by having them read and listen. They can memorize something better by recording their voice and listening. It is easy to share your podcast or recording because Croak it gives you a link. You can make a QR code and send the QR code home so parents can listen.

Cost: Free

Let me show you how is easy this is!
