

Drawing Pad

WHAT IS Drawing Pad?

Drawing Pad is an app that you can draw with many different tools, such as markers, crayons, colored pencils, paints, fun stamps, and stickers. You can also import photos and other backgrounds to your drawings. You can use graph paper, import maps, and other images and you can label, problem solve, and more. You can share your creation to your camera roll and then use it in other apps.

HOW DOES Drawing Pad SUPPORT LEARNING?

You can do math with this app on the graph paper or just with the white paper instead of using slates. My teacher uses this app to create art to be used in other apps such as Book Creator, My Story, iMovie, Explain Everything, and more. You can create the art in this app and then use that image to go into more detail in another app.

Cost: \$1.99 (half price if you purchase more than 20)

Let me show you how is easy this is!
